**Subject:** Weekly Report for CFAC RI/FS Phase I Oversight - Week Ending 4/22/16  
**Attachments:** 20160422\_Weekly Report\_CFAC\_RI-FS\_Phase\_I\_Oversight.docx; removed.txt; Figure 1\_(aw).pdf

Hi Mike,

Please find the attached weekly report for oversight activities performed at CFAC on 4/21/16. Roux is moving along with the soil gas screening and they told me that they are going to regroup and see if they can gather some mechanical equipment next week and see if they have better luck in the areas where they are having problems getting the probes installed to depth due to the apparent structural caps on the landfill areas. The geophysical data looks great and I anticipate that the data will become very useful once the drilling program starts.

Please let me know if you have any questions or need any more information.

Thanks,

August Welch, LG
